Focus on the positioning of the other umpires before the sailing boats!

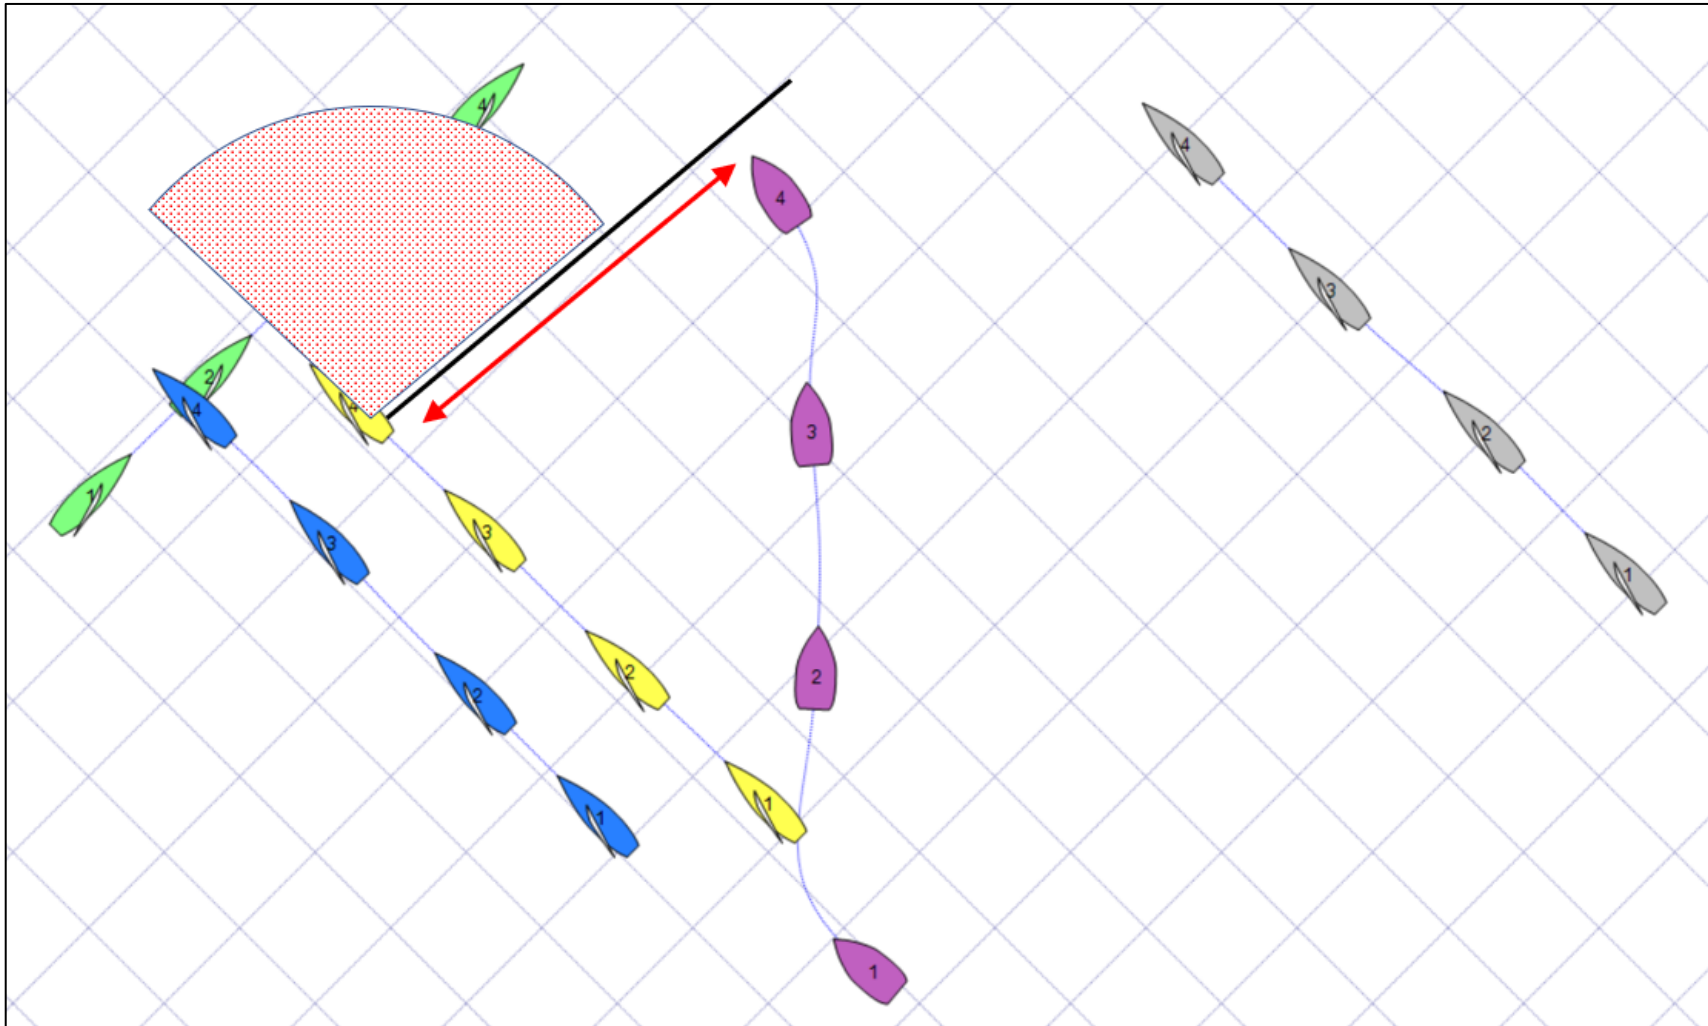

Anticipate the sailor's tactics during the last 30 seconds:

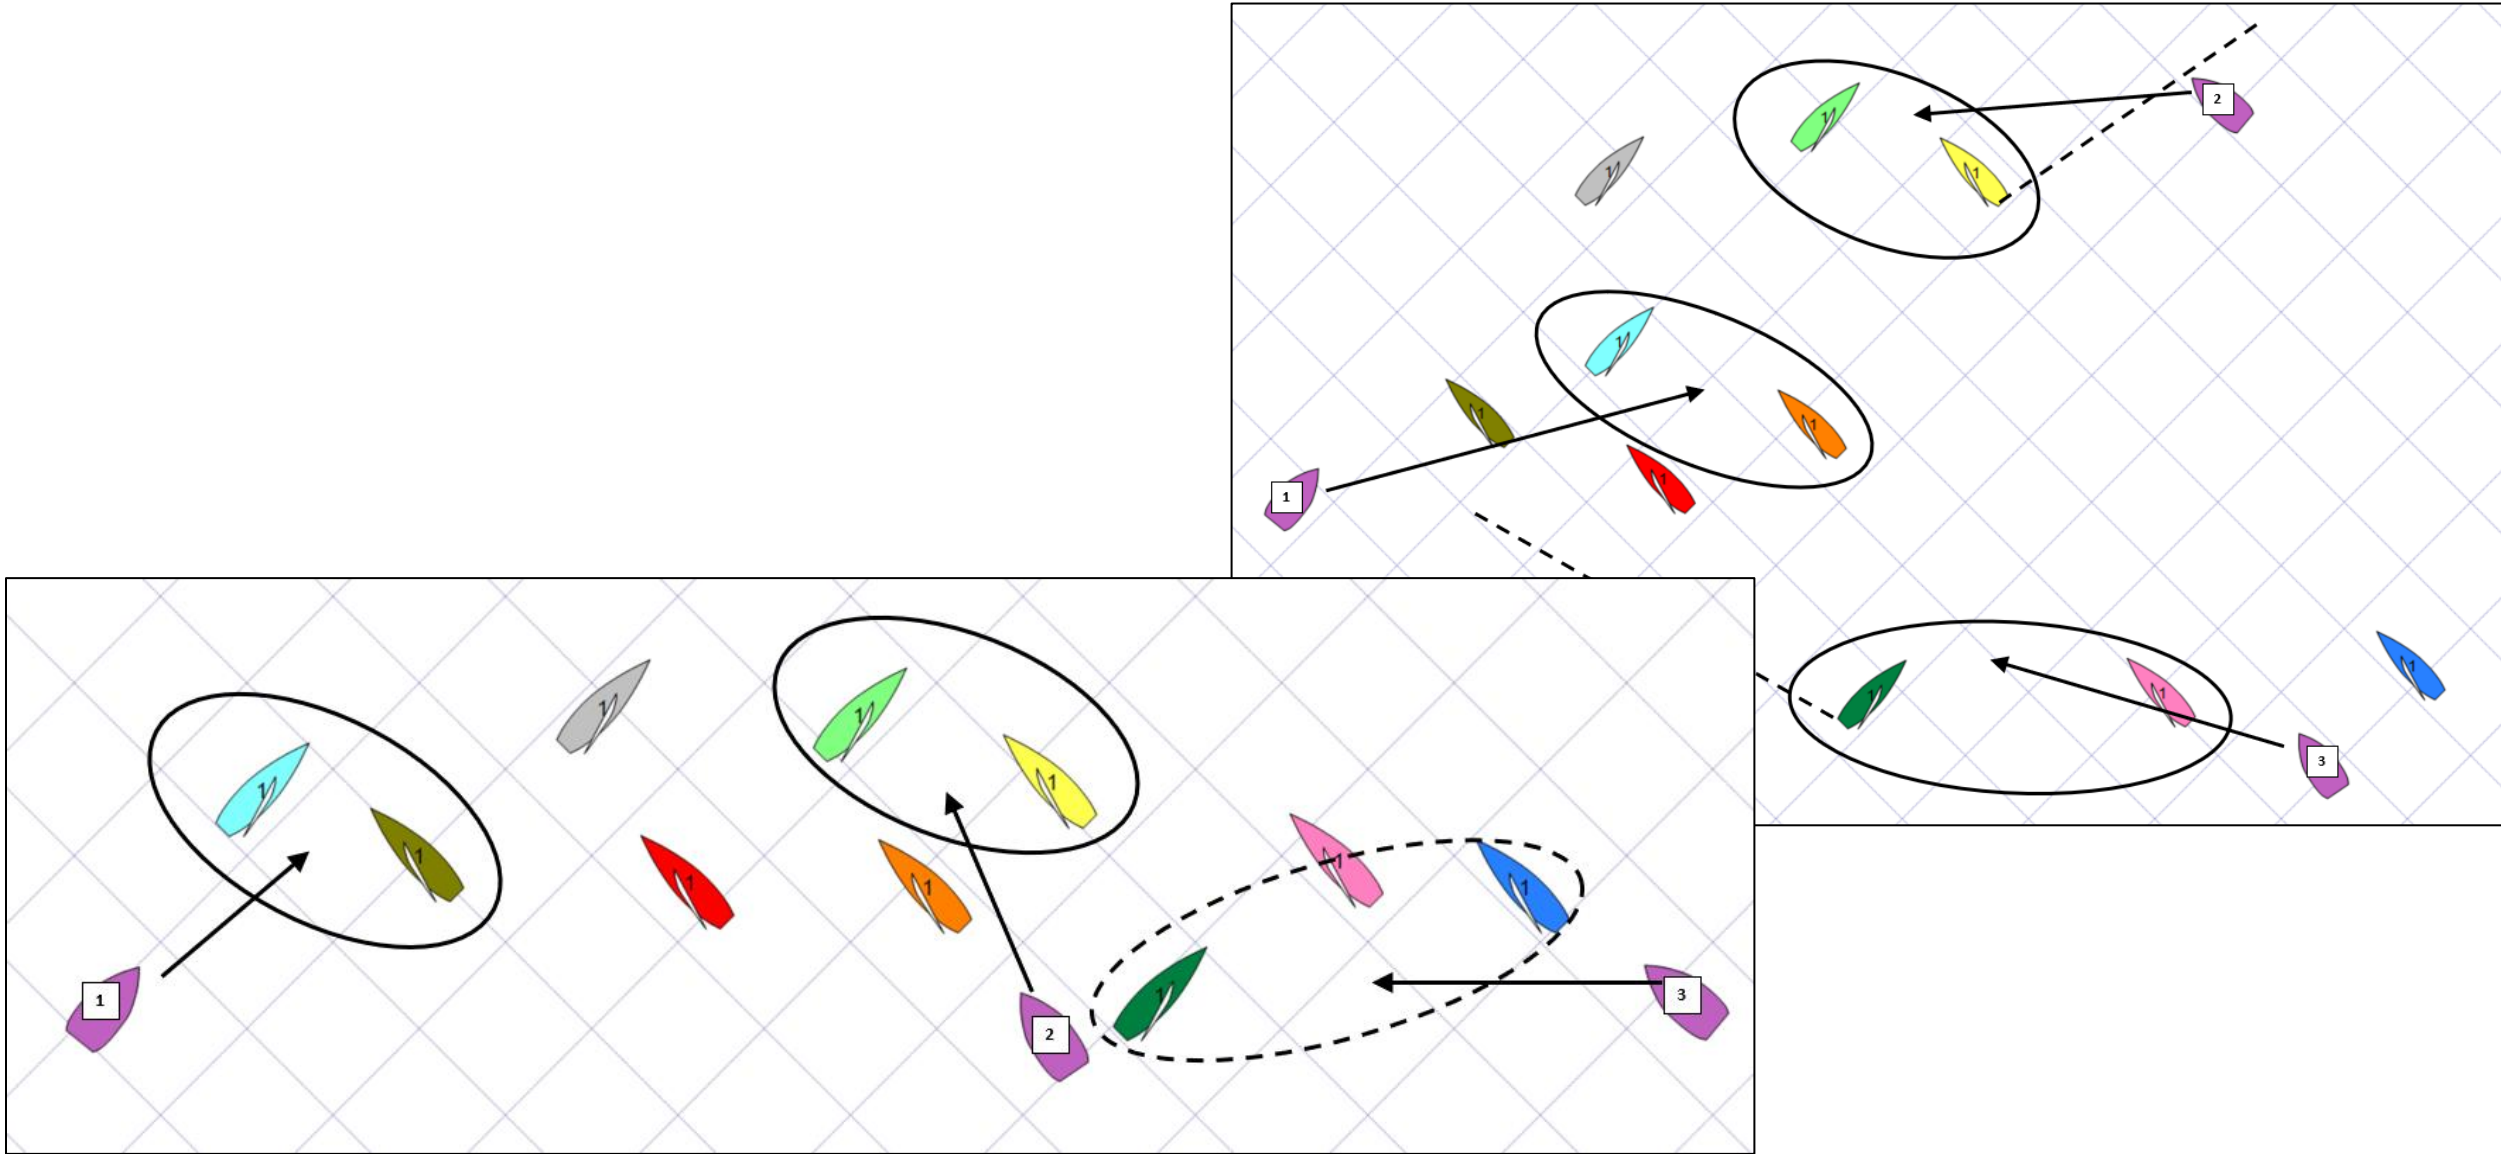

Adapt your positioning if the port will potentially cross ahead or astern, depending on what you need to see:

How to position yourself when you need to move from the back to the fleet to the top:

Umpire's boats need to position by zone or same line?

How to switch your position if another umpire is 'out of position'?
